

## PROGRESS CLAUSE

MSG:KCM/SLB

1 of 1

01-26-2016

Start work within ten (10) days after receiving the Notice of Award of Contract, or on the date agreed upon by the Engineer. In no case shall any work be commenced prior to the receipt of a formal notice of award by the Department.

All work **except** the final acceptance of the pavement markings, landscaping and punchlist items shall be completed and open to traffic (substantial completion) on or before **September 3, 2016**.

The Project shall be completed in its entirety including final site restoration and clean-up on or before **September 30, 2016**.

The Low Bidder for the work covered by this proposal will be required to prepare and submit Form 1130, Progress Schedule to the Engineer within (7) calendar days of confirmation by the Department, of the low bid. The Progress Schedule must be approved by the Project Engineer and submitted to MDOT Contract Services Division (CSD), in order for the contractor to receive contract award. Lack of timely submittal by the contractor will delay contract award per subsection 102.15 of the Standard Specifications for Construction.

The Progress Schedule shall include, as a minimum, the controlling work items for the completion of the project and the planned dates that these work items will be controlling operations. When specified in the bidding proposal, the date the project is to be opened to traffic, as well as the final project completion date, shall also be included in the Progress Schedule.

If the bidding Proposal specifies other controlling dates, these shall also be included in the Progress Schedule.

The Project Engineer will arrange the time and place for the preconstruction meeting after contract award.

The named subcontractor(s) for Designated and/or Specialty Items, as shown in the Proposal, is recommended to be at the preconstruction meeting if such items materially affect the work schedule.

Liquidated damages shall be assessed in accordance with Section 108.10 of the 2012 Standard Specifications for Construction.
