MCRC Project No.: 514-000-NEYARD
Project Description: Northeast District Salt Facility
Bid Date: Thursday, May 24, 2018 at 10:00 a.m.
By: Michael Smith
Date: 05/21/2018

The following plan clarifications are provided for the above project:

- Clarification No. 1:** Proposed Grading – The intent of the project is to balance the earthwork excavation and embankment volumes so that no earthen material has to be removed from or imported to the site. The proposed elevations for the aggregate circulation and staging area are approximate and may be revised if needed to balance the earthwork excavation and embankment volumes.
- Clarification No. 2:** Removal of Existing Brush Piles – The two existing brush piles located within the clearing, grubbing & topsoil stripping limits shall be removed and relocated to the vacant land west of the ditch that divides the property. The Road Commission will burn the brush pile in the future.
- Clarification No. 3:** Stockpiling of Removed Stumps – Stumps removed from within the clearing, grubbing & topsoil stripping limits may be stockpiled on the vacant land west of the ditch that divides the property. The Road Commission will burn the stump pile in the future.
- Clarification No. 4:** Pipe Bollards – Installation of pipe bollards at the entrance to the salt storage building is not included in the scope of work. The Road Commission will furnish and install the bollards in the future.
