

The new headquarters entrance is across from a local medical office park access drive. The newly created intersection is now controlled by a traffic signal.

La-Z-Boy Entrance

In addition to the work in the vicinity of the development, improvements were made at the intersection of Telegraph Road and Stewart Road. These improvements included the addition of a northbound to eastbound right-turn lane on Telegraph Road and a westbound to southbound left-turn lane on Stewart Road. All of the work associated with the grant has not only mitigated the impact of the new La-Z-Boy development on the roadways, but is anticipated to alleviate existing capacity issues. The total estimated cost of the project is \$1,892,088, including \$1,394,088 in Category A funds and \$498,000 provided by La-Z-Boy and the Road Commission.

YOU ASKED A QUESTION

The MCRC often receives questions about a particular service or concern about the roadway. The Road Commission will try to address those concerns and questions. If you have a question you would like published in the bi-monthly newsletter, please forward it to Alyssa at www.mcrc-mi.org or 734-240-5102.

I want to plant some trees/flowers along the road. Is that ok?

If landscaping is placed too close to the edge of the road it can be a hazard to the traveling public, maintenance vehicles, and pose a potential liability for property owners and, of course, shrubs and trees planted in that area are exposed to damage from traffic, snowplowing, and sweeping operations. Please do not plant any trees or shrubs that may become a vision obstruction or that may grow into a large fixed object that presents danger to motorists anywhere within the road right-of-way. Trees, landscaping and underground sprinkler systems should ONLY be placed outside of the road right-of-way. Before planting trees or flowers along the roadway, please call your road commission to verify the width of the right-of-way.

Contacting MCRC

If you need information about a road project or want to report a pothole, traffic signal problem or other road concern, please call the MCRC at 734-240-5102, email us at mcrc@chartermi.net, or visit us on the web at: www.mcrc-mi.org
